Alex Mercer

Full-Stack Software Engineer | San Francisco, CA | alex.mercer@email.com | (555) 019-2834

Professional Summary

Accomplished Software Engineer with 5+ years of experience in architecting, developing, and deploying enterprise web applications and distributed systems. Adept in modern JavaScript frameworks, Python backend development, RESTful API design, and cloud container orchestration.

Technical Skills

Programming Languages	Python, Java, TypeScript, JavaScript, C++, C#, SQL, HTML, CSS, Bash
Web Development	React, React.js, Next.js, Node.js, Express.js, FastAPI, Django, Flask, Tailwind CSS, GraphQL, REST API, Redux
Databases	PostgreSQL, MongoDB, Redis, MySQL, SQLite, Supabase
AI / Machine Learning	Machine Learning, Deep Learning, Natural Language Processing, NLP, PyTorch, TensorFlow, Scikit-learn, Hugging Face
Data Science	Pandas, NumPy, Matplotlib, Seaborn, Power BI, Statistics
Tools & Platforms	Git, GitHub, VS Code, Linux, Ubuntu, Docker, Postman, Jira, Figma
Cloud & DevOps	AWS, Microsoft Azure, Kubernetes, CI/CD, GitHub Actions, Terraform, Nginx

Work Experience

Senior Full-Stack Engineer — CloudNova Technologies (2022 - Present)

- Engineered microservices with Python (FastAPI) and Node.js serving 2.5M requests daily.
- Built interactive user dashboards using React.js, Next.js, and Tailwind CSS.
- Optimized PostgreSQL database queries and implemented Redis caching to reduce latency by 45%.
- Designed and maintained CI/CD deployment pipelines using Docker, Kubernetes, and AWS.

Software Engineer — Nexus Systems (2020 - 2022)

- Developed scalable backend endpoints in Django and REST API services.
- Collaborated on cross-platform features using TypeScript and Redux state management.
- Automated unit testing and integrated GitHub Actions workflows.

Education

B.S. in Computer Science — University of California, Berkeley (2016 - 2020)
